

Each quarter, Swift Bunny publishes the Employee Engagement Leaderboard. The Leaderboard showcases the property management companies who achieve the highest overall Engagement scores for the previous quarter based on results from Ingage by Swift Bunny™ employee lifecycle feedback system. The Engagement score provides insight into how employees feel about the company culture, their ability to perform their current job well, the prospect for future career development opportunities at their organization, and their likelihood to remain with the company over the next year. The Employee Engagement Leaderboard is part of Swift Bunny's employee engagement recognition program which also includes annual company and national awards.

Leaders in Multifamily Employee Engagement
